1. Claim 11 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

2. Claims 1, 6-10 and 12-16 are again rejected under 35 U.S.C. 103(a) as being unpatentable over Katoh et al. for the reasons of record.

The Katoh et al. disclosure is not limited to its specific examples. Consequently, a mixture of cationic resins including applicants' units of Formulae (1) and (2) is clearly suggested. I/O values are inherent properties of these cationic resins. The experimental modification of the prior art in order to ascertain optimum operating conditions (e.g., determine I/O values, molecular weights and coating amounts) fails to render applicants' claims patentable in the absence of unexpected results.

3. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
